

Bain Street, M27

Salford property investment

With a net yield of 5.28%, this traditional ‘Corrie’ style terrace has proven to be a fantastic Salford property investment.

Following complete renovation, this once run-down two-bed terrace has been transformed into the perfect buy-to-let investment.

Modern kitchen and bathrooms have both been fitted as part of the comprehensive renovation, alongside new central heating and floor coverings. This fantastic work, completed by our in-house team, will protect our clients investment for the future.

The property is situated within a friendly local community, with a much less of the hustle and bustle of City life. However, as located in Swinton Town centre, central Manchester is never too far away with access to regular bus routes.

As is a running theme with the properties we manage for investors, this charming home was let on the first viewing, paying testament to the holistic approach we take to Manchester property investment.
