

Rivington Court, Salford M6

Salford property investment

With net yield of over 5%, Rivington Court presents a perfect example of a smart Salford property investment.

Coming in at a total cost of approximately £124,000, this stunningly renovated apartment, surrounded by beautiful green gardens, is just three miles from the city centre.

Completely renovated throughout, the spacious two bedroom apartment boasts modern fitted kitchen and bathroom along with smart, elegant furniture pack. Re-wiring and a new heating system will reduce maintenance costs, protecting our clients investment in the years to come.

Within easy walking distance of Salford Royal Hospital, the property was acquired with specific tenants in mind. That being for NHS staff and key workers. There is also easy walking access to Manchester's fantastic public transport network.

It is of no surprise to ourselves at Thorpe & Co that the property was let on first viewing, as it represented a fantastic Salford property investment.
